

## Orkney and Shetland Islands (2016)

This PDF file contains all the amendments for the above volume of the CCC Sailing Directions issued since the edition date shown. They are grouped by the date of issue and listed by page number. Plans are included only where major changes have been made or when certain amendments are difficult to describe.

Users should be aware that the amendments to this website are not made with the same frequency as those issued by official hydrographic and navigational sources. Accordingly it remains necessary for those who use the CCC Sailing Directions as an aid to navigation to consult the most recent editions of Admiralty charts, all relevant Notices to Mariners issued by the UKHO, NLB, Port Authorities and others in order to obtain the latest information.

### Caution

Whilst the Publishers and Author have used reasonable endeavours to ensure the accuracy of the contents of the Sailing Directions, and these amendments to them, they contain selected information and thus are not definitive and do not include all known information for each and every location described, nor for all conditions of weather and tide. They are written for yachts of moderate draft and should not be used by larger craft. They should be used only as an aid to navigation in conjunction with official charts, pilots, hydrographic data and all other information, published or unpublished, available to the navigator. Skippers should not place reliance on the Sailing Directions in preference to exercising their own judgement.

To the extent permitted by law, the Publishers and Author do not accept liability for any loss and/or damage howsoever caused that may arise from reliance on the Sailing Directions nor for any error, omission or failure to update the information that they contain.

The plans in the Sailing Directions and amendments are not to be used for navigation. They are designed to support the text and should at all times be used with navigational charts.
